Dr. Mia K. Frezzo
Animal Hospital of Hasbrouck Heights
180 Boulevard
Hasbrouck Heights, NJ 07604

Dear Dr. Frezzo,

We can't express enough how much we appreciate your individualized care and genuine concern for our dog, Sadie.

When Sadie began darting her tongue in and out in rapid succession, we didn't know whether to be concerned or not, the one thing we did know is that there is never a question that we couldn't ask you. To your credit, you gave her and us your undivided attention, took the appropriate tests and counseled us on our options. Although we were concerned with the possibility that it might be neurological, we were never alarmed because of your calm demeanor and knew you were telling us all the facts so we could make an informed decision.

As you know, we opted for the MRI, and even then, you called ahead, got us all the information we needed and prepared us for the day. When we walked into the Pet Cares Imaging Center in Clifton, it was like they knew us already, because you took the extra steps to ensure they were informed of Sadie's history.

When all was said and done, the MRI did show a herniation and possible inflammation. Once again, you gave us all the options, from doing nothing and waiting to see if it corrected itself, to medication, or a more natural approach which included Chiropractic Care.

We saw Dr. Leah Van Blarcom, Animal Chiropractor, at your office and were thrilled with her assessment. It took one adjustment and all the tongue darting stopped and Sadie was back to her playful, happy self. We saw Dr. Van Blarcom for two additional appointments, and are confident we made the right decision to go the natural route.

You may ask why we are writing this to you, as you know the story already! Here's why, to let you know how much we value your practice.

There are many other Veterinarians who take wonderful care of animals every day, but you and your wonderful staff offer much more. You are the best of both worlds, all the routine care, vaccinations, preventative care, and medication when needed, coupled with a natural approach with Essential Oils, Chiropractic, etc. has you stand out above the rest.

With sincere appreciation,

Kathryn Imbrogno

Leah Suzanne Kaplan
